ENCLOSURES (NO. & TYPE)

REMARKS

1. On 27 April 1954 only few soldiers with black-bordered red and red-bordered black epaulets and one soldier wearing blue-bordered black epaulets with signal insignia were seen at the Auf-Kaserne northeast of Urfahr (N 49/V 88). The installation was guarded by a sentry wearing black-bordered red epaulets with artillery insignia. About 100 troops with black-bordered red epaulets fell in in the barracks yard, apparently for a roll call. The barracks were apparently not occupied to capacity. In the barracks area the following motor vehicles were observed: 5 trucks, 1 tank truck, 1 sedan and 1 jeep, all parked in the open and 10 motor vehicles in garages only partly occupied. Truck [] sedan [] driven by soldiers with black-bordered red epaulets, and jeep [] were seen entering and leaving the barracks.

2. On 30 April 2 light SU-76 AT guns, 2 mobile field kitchens, 32 trucks and 5 jeeps were parked in the area of the former Landesheilanstalt in Mauern-Oehling (O 49/W 26). The installation was guarded by a sentry wearing red-bordered black epaulets. As compared with previous observations the activities within the area of the Landesheilanstalt were considerably less than previously. At 10:00 a.m. 20 PM with carbines led by a senior lieutenant, all with black-bordered red epaulets, marched to the firing range. At about 2:00 p.m. trucks [] driven by soldiers with red-bordered black epaulets, entered the Landesheilanstalt from western direction. The first three of the above trucks carried 20 soldiers each, all with red-bordered black epaulets. In addition, each of these three trucks carried a light machine gun and targets. The fourth truck was loaded with equipment. Driving school truck [] and jeep [] all driven by soldiers with red-bordered black epaulets, and truck [] driven by a soldier with black-bordered red epaulets, were observed at the Landesheilanstalt.

Comment. The fact that in the Aufhof Kaserne northeast of Urfahr less troops are quartered now than previously, as well as the slight activity within the area of the former Landesheilanstalt in Mauern-Oehling indicate that elements of the 287th and 290th Gds. Itz Rifle Regt of the 95th Gds Itz Rifle Div presumably are at Doellersheim troop training grounds. The motor vehicle [] observed in Urfahr and Mauern-Oehling belonged to the 95th Gds Itz Rifle Div, whereas jeep [] could not be interpreted.
